They bought two lots, back to back and own 3 Paradise Irrigation Shares between the two lots. They are going to build the home with a walk-out basement. They are currently digging the hole for the home and the walk-out basement and have a large amount of dirt piled next to the hole. The Planning Commission went over what was going to be done with all the dirt with the Godfreys and discussed their potential flood risk if they have a walk-out basement on a flat piece of land. They also made sure the Godfreys understood that when they create this walk-out area from the basement they cannot force the potential run-off or any water onto someone else's property and cause flooding elsewhere. The Godfreys understand this and will grade the property appropriately.
